Geotech Gold Display System

Geotech

From table tops to large scale environments, Geotech allows you to construct the size and shape of the exhibit required by using modular component. Easily convert your 10'x10' display into a 10'x20' or larger.

Our Geotech line allows you to customize your display by adding various accessories such as shelving, lighting tables, audio visual components, and more. Displays are available with graphic or fabric panels that magnetically attach to the pop-up frame.

Innovation of design allows for quick and easy setup while compact packaging is great for shipping.

Each of these displays set up with ease by a single person, and pack into our compact oval cases on wheels (24" wide x 17" D x 38" Tall) that double as sales podiums.

Geotech Gold Features

- *LifeTime Warranty (against manufacturer defects)*
- *Fold out Magnetic Channel Bars*
- *Convertible Frame- Easily changes the height or width of your display!*

Channel bars easily slide over hubs

Snap to the frame for extra support

Using Modular pop up components save time and money
