The "L" Bannerstand

LBanner

Our most compact and economical bannerstand.

These make the L banner a great way to get your message across.

This bannerstand is not only compact but can also be joined at the seams to create a double or even triple the size backwall.

Looking for a more economical way to create a back wall, or just looking for something as light as possible that still creates a large graphic?

The L banner system is for you! Its perfect for someone who is trying to get the most out of their space at the best price. These banners come in a number of different sizes varying from

As shown above the graphic size is 33.5" by 84.5" tall.

8.5' wide backwall

By connecting 3 L Banners you can create your own portable Backwall Display.

Carrying Case

The L banner, when not setup rolls easily into the supplied carrying pack with a hard interior to help protect your graphics. The pole and foot also fit nicely into the case, in their own supplied sleeve.
